Claim Rejections - 35 USC § 102

Claims 1-3, 6-12, and 15-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US Pat. 3582356.

Referring to Figs. 2-5 and col. 2, lines 58-67, US'356 discloses the skewer gripping device exactly as claimed.

The Examiner notes that although Applicant appears to contemplate use of the gripping device with other types of meat products than that depicted by US'356, this is merely an intended use. A recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. The skewer gripping device of US'356 is clearly able to perform the intended use of securing diverse cuts of meat.

Claim Rejections - 35 USC § 103

Claims 4, 5, 13, 14, 19, and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over US'356.

The claims differ from US'356 only in calling for a hexagonal plate. However, this does not patentably distinguish the claimed invention from the prior art. It would have been obvious to form a hexagonal plate, or any regular polygonal shape, to prevent rolling of the device when mounted on a skewer.
